What We Are About

ASI | Architectural Systems, Inc. is a leading global resource for innovative, distinctive and sustainable interior finishes.

Foremost architects and designers, along with the broad base of decision makers across all market segments collaborate with ASI for their material expertise, project management from start to finish, material take-offs/on-site support, commitment to service, product solutions, custom capabilities and a robust range of finishes for **wall surfaces, flooring and more...**

ASI curates dimensional wood panels, high-performing hardwoods, luxury vinyl and porcelain plus natural stone and decorative surfacing material to provide the right aesthetics for your design vision and budget **with the added ease of finding it all in one place!**

ASI®
LAB

Visit us in our new space where we welcome the opportunity to collaborate with you!

256 W 36th Street , 10th Floor, New York, NY 10001

archsystems.com

Emerging Strong

As we all collectively move forward into the new normal, feeling safe is a paramount concern for the A&D community. Designing spaces will require additional features and benefits built into solution-based products.

With this in mind, ASI has organized the following characteristics that are available across our material offering with a new header in our specifications for Health and Wellness, under Features & Benefits and an added filter on our webite, Well-being, for ease of selection.

Featuring Composition Cork -
Apex - Cinza Escuro - WPCRK005

For all five collections in the Composition Cork series, there is a natural bacterial resistance inherent in this material.

Composition Cork - Apex

SPECIFICATIONS:

SIZE: 11.81" x 23.62" (300mm x 600mm)

THICKNESS: 0.39" (10MM)

FINISH: Factory Sealed

INSTALLATION: Adhere to surface with construction adhesive

CONSTRUCTION: Natural 100% renewable cork bark with natural color pigments and beveled edges

PACKAGING: 30 pieces per box - 58.13 SF

HEALTH AND WELLNESS: The inherent properties in cork provide a naturally bacterial resistance

• Low VOC emissions

• Sound Absorbing, NRC = 0.15

• Can contribute to LEED®

• Please note that variations in color and texture may occur due to the nature of the material
